

This document contains release notes for the Version 3.5 release of FOIAonline, for release after COB on November 2, 2018. This document provides a summary of enhancements, bug fixes, and other updates contained in the release.

## **New Enhancements**

---

- Added the ability for Help Desk role to allow external cases created through Raw Data Upload resolved by the index, and therefore seen in the UI.
- Added the External Agency User type, with permissions to upload raw data spreadsheets and access the generated Office Annual Report.
- Increased the Agency Opinion character limit to 2000 characters on the Close Out Consultation page.
- Task Details page updated to include Task Closed Date and Task Status.
- Provided additional layer of resiliency to retry a session when the processing receives an error.
- Updated Sub-Agency dropdowns so external agencies do not appear.
- Updated the back-end logic of the Raw Data Export generation to overcome the 20 minute time-out.

## **Bug Fixes**

---

- Fixed issue where attempting to upload a restricted file type would cause the file table to disappear.
- Fixed tables in the Agency Administration tabs so only select columns are sortable.
- Updated the name of a field in the Annual Report text, Sections I, II, and XI.
- Fixed issue where the system would not generate a Correspondence entry for Appeal Submitted.
- Fixed issue where the system would throw errors when users attempted to transfer cases.
- Fixed issue where public users were able to select more than one agency for Annual Reports.
- Fixed issue with migrated sub-agency that was limiting their ability to create a sub-agency below it.
- Fixed issue where code would display in the Subject line of the clock stopped notification email.
- Fixed issue to allow users to mass assign on the dashboards.
- Fixed Year-End Annual Report Editing pages so select Total rows and columns display as read-only.
- Fixed issue where task tracking numbers would not always be the same as the parent case's tracking number.
- Fixed issue where statutes and subtypes used on the underlying request would not display and be editable on the close out page for appeals.
- Fixed issue where release dates would continue to display on previously released records that were changed to UU or RU.
- Fixed issue where Year-End Annual Reports would error at Step 5 due to quotations in the Exemption 3 Statute names.

- Fixed issue where the system would throw an error when the user navigated to the Agency Administration page from a User Administration page.
- Fixed issue with incorrect display of attachments on Correspondence and Other Correspondence.
- Fixed issue where external appeals would attempt to find exemptions applied on the underlying request during closeout.
- Fixed issue where the icons did not match the Detail and Remove columns on the Correspondence tab.
- Fixed Annual Report issue where logic would count “Improper FOIA Request for Other Reasons” for “Other” disposition.
- Fixed Annual Report issue where Processing Time 1-20 days would be correct because it excluded clock days below 1.
- Fixed Annual Report issue where Average, Median, and Totals would be calculated incorrectly for Section VIII.
- Fixed Annual Report issue where Days Tolloed in the Raw Data Export would be incorrect due to clock stoppages extending past the case closed date or overlapping clock stoppages.
- Fixed Annual Report issue where Date, Number of Days, and Granted/Denied columns were populated for pending Expedited Processing and Fee Waiver tasks.
- Fixed Annual Report issue where Processing Costs and Number of FTE Users would not calculate correctly for Section IX.
- Fixed Annual Report issue where Pending and Backlog cases were not being calculated correctly for Sections VI.C.5, VII, and XII.
